- ADOBE INDESIGN
- ADOBE PHOTOSHOP
- ADOBE AFTER EFFECTS
- ADOBE PREMIER
- ADOBE XD
- FIGMA
- ZEPLIN
- WORDPRESS
- HTML5/CSS

## WORK EXPERIENCE

### Freelance UX-UI Designer

Nir Navot Studio / 2021 - Present

By creating a variety of digital products - whether they were creating a complete demo platform used by a known tech company, through planning ux and creating a ui design for other management systems and building various portfolio sites, I gained valuable experience throughout the entire digital product development process as a whole.

### UX-UI Designer & QA TESTER

VPlans / 2018 - 2020

Creating a complex system containing a vast number of features responsible for project management (which was originally designed for the construction industry - but was expanded to other fields), with the objective of uniting all the factors associated with the various projects and creating a uniform communication path. Following that, I took part in testing processes for the resulting product. All employees were directly involved in the development of the product, from direct communication with the product manager to the programmer and to all other personnel involved in the process.

### Export Representative

Fedex / 2015 - 2018

Optimizing the reception of shipments that arrive on late night flights by receiving them and entering them into computerized systems and, if necessary, sending them for documentation by customs.

## LANGUAGE PROFICIENCY

### Hebrew

Native speaker

### English

Near native / fluent
